To whom it may concern;

We used Bayline Demolition in the recent past on one of our projects in Palo Alto. They performed a soft demolition of a portion of a historic residence (including all interior finishes) that we are remodeling. They also performed a hard demolition of a guest house on the same property.

We were pleased with their performance. They came to the job when scheduled with sufficient manpower to perform their work. They continued each day with their work until it was complete. Their senior project manager (Pedro) worked with his men frequently to insure that the work was being performed in accordance with our desires. When we had a question or concern, that question or concern was always addressed promptly and remedied to our satisfaction. At the completion of their work, they left the worksite clean and tidy.

We would not hesitate to use Bayline Demolition again on our upcoming demolition needs. If you have any questions, please feel free to call me.

Thanks,

Don Wallace
